Eltanmia Co.

About Us

Eltanmia FOR CONTRACTING is a premier Egyptian electromechanical contracting firm dedicated to
providing fully integrated Mechanical, Electrical, and Plumbing (MEP) engineering solutions. Founded on the
principles of technical precision, operational reliability, and unyielding safety standards, the company delivers endto-end building services for complex developments across commercial, residential, healthcare, hospitality, industrial, and institutional sectors.
As a specialized MEP partner, Pulse FOR CONTRACTING bridges the gap between intricate engineering designs
and flawless site execution. We collaborate closely with main contractors, real estate developers, engineering
consultants, and project managers to construct sustainable, energy-efficient, and fully compliant building
infrastructure. Our interdisciplinary approach ensures that electrical power, climate control, fluid mechanics, life
safety, and smart control systems function as a cohesive, high-performance ecosystem.

Eltanmia Co.

Vision

To be recognized as a leading, highly trusted electromechanical contracting company in Egypt and the region—setting benchmarks in engineering excellence, innovative project delivery, and sustainable building services while cultivating long-term strategic partnerships built on performance and integrity.

Mission

To engineer, install, and commission advanced MEP
systems that exceed international technical standards and client expectations. We achieve this by deploying state-of-the-art engineering practices, prioritizing occupational health and safety, optimizing energy efficiency, and empowering a skilled workforce to execute projects within budget and on schedule.

CORE VALUES

Quality	Integrity	Safety
Professionalism	Innovation	Commitment
Teamwork	Client Satisfaction	Logistics

Eltanmia Co.

Eltanmia Co.

COMPREHENSIVE MEP SERVICES

Electrical Systems

▪Electrical Power Distribution Networks
▪ Medium Voltage (MV) & Low Voltage (LV) Systems
▪Main Distribution Boards (MDBs) & Sub-Distribution Boards
▪ Cable Management Systems, Cable Trays, & Ladders
▪ Internal & External Architectural/Functional Lighting
▪ Emergency & Exit Lighting Systems
▪ Earthing, Grounding, & Lightning Protection Systems
▪ Backup Diesel Generators & UPS Systems
▪ Electrical Testing, Inspection, & Commissioning

Building Management & Smart Systems

▪Building Management Systems (BMS) Design & Integration
▪ Centralized Energy Monitoring & Sub-metering
▪ Lighting Control & Smart Automation Protocols
▪ Motor Control Centers (MCC) & VFD Integration
▪ Smart Building IoT Integrations for Energy Efficiency

Low Current & Security Systems

▪ Addressable & Conventional Fire Alarm Systems
▪IP-Based CCTV Surveillance & Video Management Systems
▪ Access Control & Time/Attendance Systems
▪ Data Networks, Fiber Optics, & Structured Cabling
▪ Audio/Visual Public Address & Voice Alarm (PA/VA)
▪ Intercom & IP Telephony Networks
▪ SMATV / MATV Television Distribution Systems

HVAC & Mechanical Systems

▪Central Air Conditioning & Chilled Water Plant Systems
▪ Air Handling Units (AHUs) & Fan Coil Units (FCUs)
▪ Variable Refrigerant Flow (VRF/VRV) Systems
▪ Mechanical Ventilation & Smoke Extract Systems
▪ Ductwork Fabrication, Insulation, & Air Distribution
▪ Chilled Water Piping Networks & Pumping Stations
▪Equipment Installation (Chillers, Pumps, Cooling Towers)
▪ Air & Hydronic Balancing, Testing, & Commissioning

Plumbing & Sanitary Systems

▪ Domestic Cold & Hot Water Supply Networks
▪ Central Water Heating & Filtration Plants
▪ Soil, Waste, & Vent Drainage Systems
▪ Stormwater Harvesting & Drainage Systems
▪Water Booster, Transfer, & Submersible Sewage Pumps
▪ Underground & Overhead Water Storage Tanks
▪ Sanitary Fixtures & Commercial Plumbing Installation
▪ Hydrostatic Pipe Testing & Network Disinfection

Fire Fighting & Life Safety

▪Fire Water Supply Infrastructure & Dedicated Pump Sets
▪ Automatic Sprinkler Systems (Wet, Dry, & Pre-Action)
▪ Fire Hose Reel Cabinets & External Fire Hydrants
▪Clean Agent Gas Suppression Systems (FM-200, CO2, Novec)
▪ Deluge & Water Spray Fixed Systems
▪ Fire Safety Hydraulic Calculations & System Balancing
▪NFPA & Egyptian Civil Defense Compliant Commissioning

Eltanmia Co.

ENGINEERING & TECHNICAL CAPABILITIES

Pulse FOR CONTRACTING delivers high-grade engineering support throughout every phase of construction. Our technical office ensures flawless cross-disciplinary alignment, eliminating spatial conflicts before physical installation
begins.

Design & Coordination

MEP Design Review, Spatial Clash Detection, Multi-Discipline MEP Coordination, and
Fully Coordinated Composite Drawings.

BIM Integration

Building Information Modeling (BIM) Level 2 Execution, 3D Spatial Coordination, and
Asset Data Model Generation.

Engineering Deliverables

Detailed Shop Drawings, Material Submittals, Method Statements (MS), Inspection
and Test Plans (ITP), and As-Built Drawings.

Testing & Documentation

Systems Pre-commissioning, Functional Performance Testing, Operation &
Maintenance (O&M) Manuals, and Final Handover Packs.

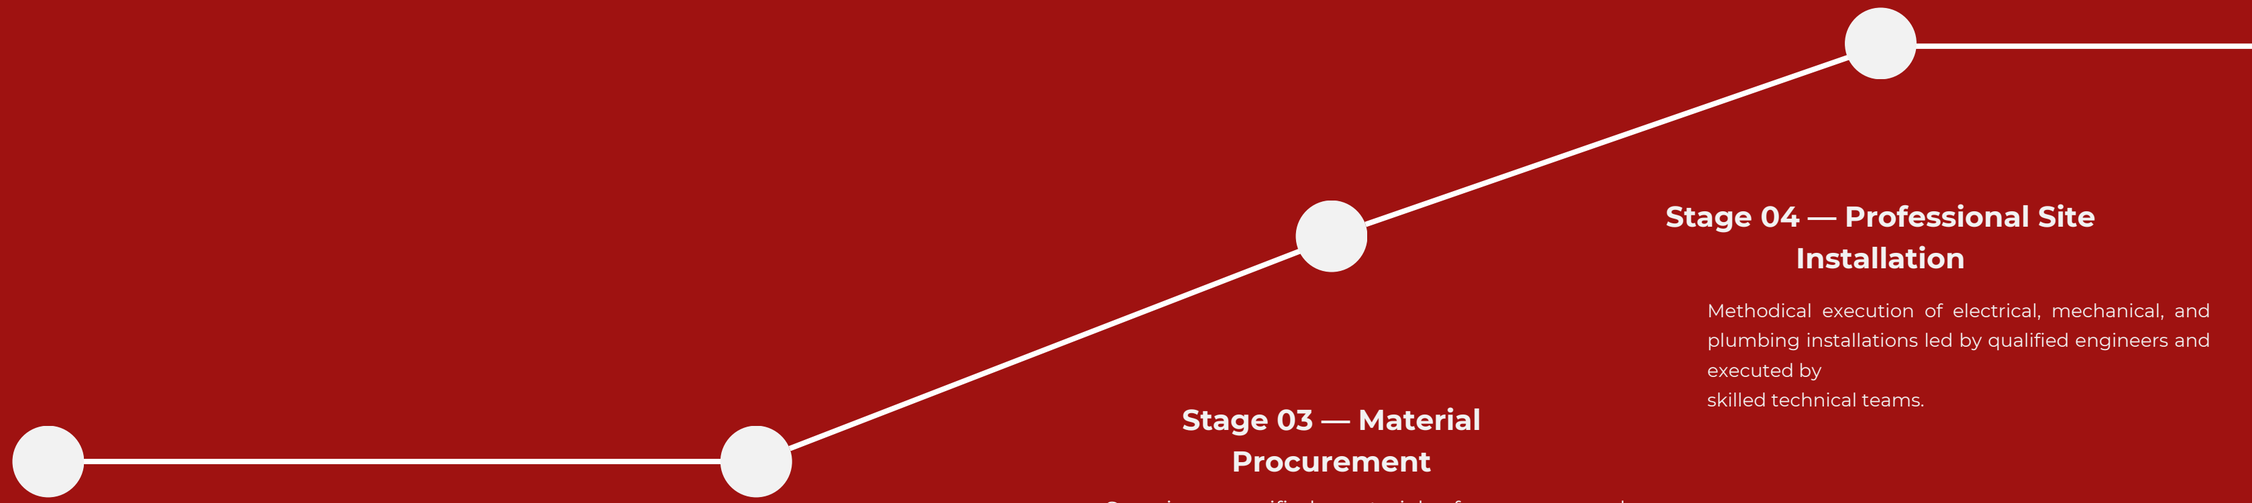

Cost & Value Engineering

Detailed Quantity Take-Offs (QTO), Bill of Quantities (BOQ) Auditing, and System
Value Engineering for Cost Optimization.

Eltanmia Co.

PROJECT EXECUTION METHODOLOGY

We execute projects using a structured 7-stage workflow designed to minimize risk, maintain quality, and adhere strictly to target milestones

Stage 01 — Project Understanding & Review

Comprehensive evaluation of contract documents, architectural/structural drawings, project specifications, client requirements, and site constraints.

Stage 02 — Engineering & Planning

Preparation of detailed shop drawings, BIM clash-free models, baseline schedules, resource allocation plans, and material procurement strategies.

Stage 03 — Material Procurement

Sourcing specified materials from approved manufacturers, managing technical submittals for consultant approval, and coordinating site deliveries.

Stage 04 — Professional Site Installation

Methodical execution of electrical, mechanical, and plumbing installations led by qualified engineers and executed by skilled technical teams.

Eltanmia Co.

Stage 05 — Quality Control & Inspection

Rigorous internal QA/QC inspections at every construction milestone, managing Request for Inspection (RFI) approvals with supervision consultants.

Stage 06 — Testing & Commissioning

System-by-system hydrostatic testing, electrical insulation testing, air/water balancing, integrated logic testing, and civil defense approvals.

Stage 07 — Handover & Post-Project Support

Submission of final As-Built documentation, O&M manuals, spare parts packages, client team training, and commencement of warranty period.

Eltanmia Co.

QUALITY MANAGEMENT

Our commitment to quality governs every stage of operations under a strict QA/QC framework designed to meet international standards.

HSE MANAGEMENT

Health, Safety, and Environment (HSE) is integral to our philosophy, maintaining a safe working environment across all sites.

Why Eltanmia FOR CONTRACTING?

- Integrated MEP Solution Provider: Single-point
- accountability for electrical, mechanical, HVAC, plumbing, and low current installations.
- Engineering Rigor: Robust technical office ensuring optimized designs, clash-free BIM models, and value engineering.
- Quality & Compliance Focus: Uncompromising alignment with local codes, Egyptian Civil Defense, and international engineering standards.
- Safety-First Culture: Proactive HSE policies that
- safeguard project personnel and assets.
- Schedule & Cost Control: Disciplined management focused on timely completion within approved financial budgets.
- Professional Handover: Clear, organized documentation, training, and post-installation support.

Eltanmia Co.

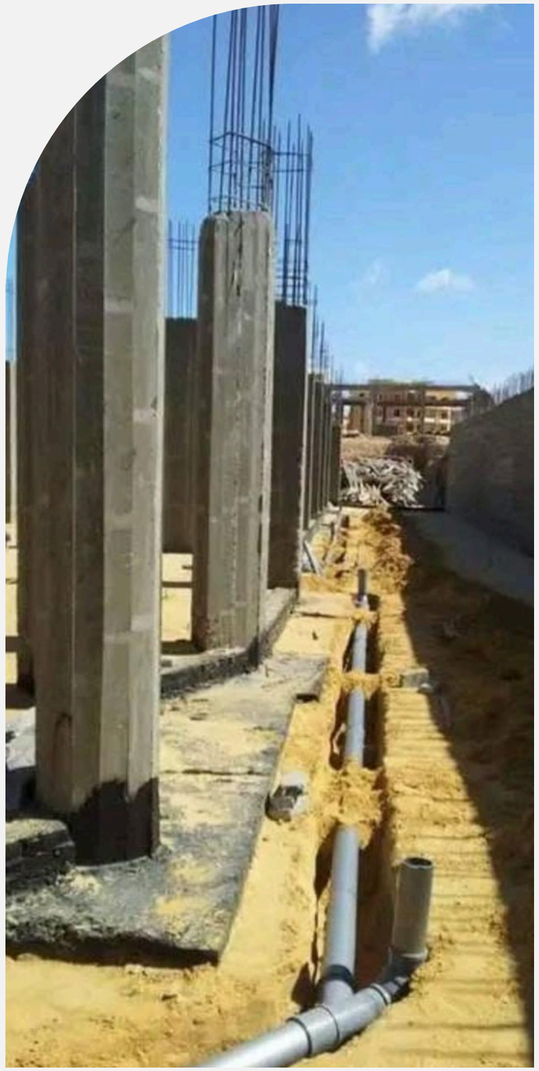

Health, Safety, and Environmental Commitment

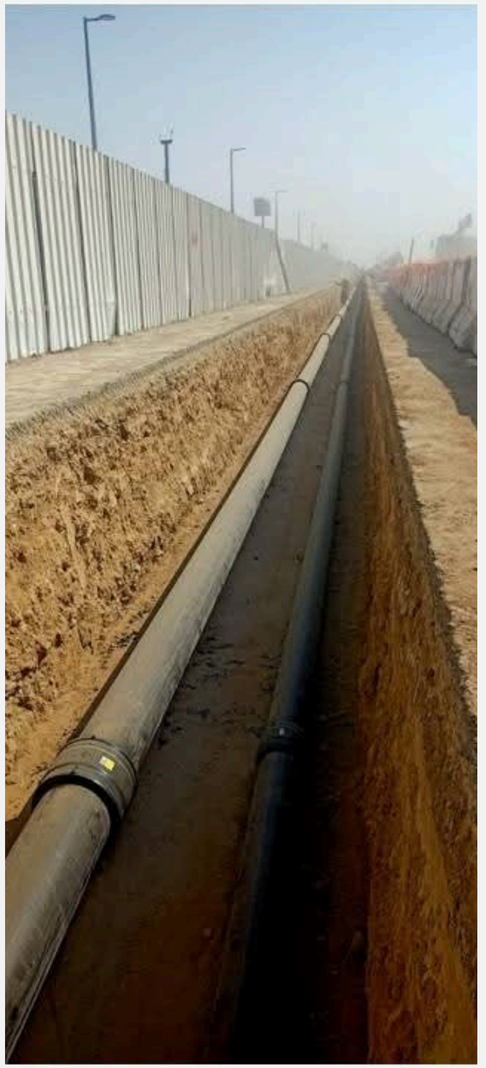

At Eltanmia Co. , our commitment to health, safety, and environmental (HSE) excellence is fundamental to our operations and integral to our corporate values. We prioritize the well-being of our employees, communities, and the environment through rigorous standards and proactive measures. Here’s how we uphold our HSE commitment:
